

REMOTE CONTROL

FOR AHB380

REMOTE CONTROL - A110P380-5G01

This option allows you to take control of the AHB380/ AHB EASY hot bonders from multiple devices through a WiFi or 4G-5G connection.

The AERO CLOUD BONDING app gives you the possibility to supervise several hot bonders at once remotely on different devices, via a private and secure cloud server.

It offers total freedom in managing hot bonders and curing cycles.

IDEAL FOR
